*End of Course Assessment Readiness for Algebra I & English 10

How IOA works:

- IOA offers flexible enrollment with a new session beginning on the 4th Monday of the month.
- Tuition is per class and based upon the student's school of enrollment.
- A student can work on his/her IOA class anytime 24/7 through an internet connection and work at his/her own pace.
- Assignments are completed online or submitted through a secure website.
- Final exams are proctored at the student's school of enrollment.

"Working with IOA has been a wonderful and rewarding experience. I am able to reach students all across the state and help teach them in an online environment. I incorporate web 2.0 tools in my courses to help keep students engaged as well as provide them activities to hear and speak Spanish. I love working with the Indiana Online Academy and the opportunity to make a difference in a student's life."

~Cindy Franklin
IOA Spanish Teacher

Our Mission:
Providing students with the means to earn high school credit through the delivery of dynamic, engaging, standards-based curricula.

Why IOA:

IOA classes may be right for a student who:

- needs Core 40 or AP credits.
- likes to learn in an online environment.
- needs more time for elective classes.
- is home bound.
- needs a flexible schedule.
- needs summer school classes for credit.
- wants classes not offered by his/her high school.
